PROFILE

My passions revolve around gaming, art, and tech. I have released trailers for major titles including Telltale's The Walking Dead and Batman: The Enemy Within.

I'm looking to work with a progressive group of creatives who embrace change and want to push boundaries. My ideal team and I thrive on how fast the world moves and we'll be right there keeping up with it.

Mostly all skills were self taught. I like to pride myself in how fast I pick up newly acquired skills and apply them to my work. Even when I'm not working, I'm probably learning something new. You could say I have a healthy obsession with Pinterest and tutorials.

It's the hands-on work that inspires me the most. And coffee. Can't forget coffee.

SKILLS

EXPERIENCE

Telltale Games (2017 - 2018)
 Video Editor

- Edited story trailers along with various promotional videos for social media
- Trailers for major IPs include Batman: The Enemy Within (DC), Guardians of the Galaxy (Marvel), The Walking Dead, and Minecraft
